Wharton  
UNIVERSITY OF PENNSYLVANIA  
FNCE 731: International Corporate Finance  
Spring 2020  
(Preliminary)  

Professor Karen Lewis Office Hours  
2446 SH-DH: Tuesday 1:30-3:00 and by appointment  

Course Syllabus  

Learning Objectives:  
In this course, you will learn how to evaluate problems encountered by the international financial officer of a corporation, including how to:  
- Assess the company’s risk exposure due to cash flows that may be denominated in foreign currency and how to manage that risk;  
- Consider the effects of inflation differences across countries on company competitiveness and profitability;  
- Calculate the international cost of capital  
- Understand issues involved with company valuations across countries;  
- Understand basic differences in international tax treatments across countries and their impact upon repatriation of foreign cash flows, the cost of capital, and valuation.  

Who Would Benefit From This Class?  
Studying the topics in this course generally benefits students who are preparing for careers that either work directly with international corporations or else evaluate these corporations. For example, understanding these topics is often useful for work in:  
- Companies with operations abroad or  
- Firms that consult or work with these international companies or  
- Private equity firms and hedge funds that invest in these companies or  
- Entrepreneurs or small businesses considering foreign sales or operations.  

Course expectations: In order to focus upon real world problems faced by companies, this course uses many case examples. I will present some in lecture format to highlight business problems. Other cases require group write-ups or short problem set solutions and will be discussed in class. In addition, there will be two in-class midterm exams. The calendar for these cases and exams are below as well as on Canvas.  

Overall Grading: To arrive at a final course grade, a numerical weighted average will be computed for six components: (a) 2 in-class midterm exams; (b) 3 group case write-ups or 2 group case write-ups and a short presentation on a foreign company; (c) a group capstone
case write-up; (d) 2 problem sets, and (e) course participation. Also, two of the write-ups and one problem set include a short computer simulation. All assignments may be done with a group, or individually, according to your preference.

The numerical weighted average will be calculated as follows:
1. Midterm Exams (2 total): 40% => 20% each
2. Write-ups and/or presentation (3 total): 27% => 9% each
3. Capstone Case (1 total): 15%
4. Problem Set (2 total): 8%=> 4% each
5. Class Participation: 10%

Details on these components are given below.

1. **Exams** – There are two in-class midterm exams. Summary reviews of the topics covered will be presented in a lecture format during the class period before each exam. Old exams will be posted to provide sample questions and answers. Please note

*Note: Since material in the course changes over time, not all potential types of questions will be reflected in old exams.*

2. **Regular Write-ups** – Three of the business cases require write-ups addressing both qualitative and quantitative issues. As with actual practice in business, all of the cases are written to focus on issues, not answers, and as such may be ambiguous. There are often no “right answers” to cases, just good arguments and bad arguments for taking particular actions or decisions. There is sometimes a limited amount of quantitative information on which to make a decision and thus it may be impossible to compute a precise numerical answer.

For one of these assignments, the “Foreign Company Analysis” in the list below, there is a spreadsheet analysis for a foreign company along with a brief (5 minute) presentation. This assignment counts the same as the write-ups.

The lowest grade among these four potential assignments will be dropped so that only 3 write-ups or 2 write-ups and a presentation matter for the grade. Therefore, you may choose not to turn in one of these assignments.

3. **Capstone Case** – To synthesize the topics you will have learned throughout the semester, there will be an extended capstone write-up at the end of the course. This write-up cannot be dropped.

4. **Problem Sets** – Three of the business cases only require submitting the answers to some objective quantitative questions in the form of “problem sets.” The lowest grade for the problem set assignments will be dropped and you may therefore choose not to turn in one assignment so that only 2 problem sets matter for the course grade.

5. **Class participation:** There are two components to the participation grade.

(a) Attendance: Attendance counts two-thirds towards the participation grade. It will be taken every case discussion day (generally Wednesdays) and on a random basis on other days. I take attendance promptly at the beginning of the class so as not to take up class-time.
Note: If you are late to class, please let me know at the end of that class period that you were in attendance if you want to be counted as present.

(b) Discussion: A discussion grade will count one-thirds towards the participation grade. The discussion grade will generally depend upon your willingness to give answers when called upon (whether right or wrong) and also your willingness to volunteer to help discuss case questions. A participation grade will be posted twice a semester on Canvas as “check”, “check+” or “check –“.

**Groups** - To submit assignments, you will form a “Group” through the IEMAV site (accessible through Canvas). The maximum number of students permitted in a group is 4. You will form a “group” whether you are working alone or with others. Please note that the IEMAV system requires you to follow this step every time you submit an assignment. The group sign-up procedure will be covered in detail during class.

Generally, students prefer to form a group early in the semester and keep with that group throughout. Nevertheless, students sometimes prefer to submit some assignments individually or to join a different group during the course of the semester. You may make these changes through the site. You do not need my permission to change teams.

**Course Materials, Submissions, and Other Basic Information:**
All course materials will be accessible through the Canvas site. All submissions will be done on the IEMAV site (accessible through Canvas). The table below summarized the due dates and submission buttons on IEMAV.

Simulations are due by 8:30 AM to allow me time to prepare for class.

Reading material:

a. Cases: All copyrighted cases are available for purchase through Study.Net. All non-copyrighted cases are available on Canvas.

b. Lecture Notes, Slides, Additional Reading: All these material are posted on Canvas. Slides will be posted prior to the class in which they are discussed.

Prerequisites: A thorough knowledge of Corporate Finance (FNCE 611) is assumed.

Re-grade procedure:

1. Please write a brief explanation of why you believe a question on your assignment or exam was improperly graded. Send an email to me with this explanation along with a scanned copy of your assignment. The assignment will be reviewed by the TAs and me. I will then inform you about whether the grade has been changed and the reason why.

2. Requests for regrades may be submitted to me only up to two weeks after the graded assignment or exam has been returned to you or made available for your pickup.

3. Please note that regrades will cover the entire assignment and therefore may potentially result in lowering the grade.

Course Topics by Class

Note: For dates of each Class numbers, please see class calendar under Canvas.

Part 1: International Cash Flow Risk and Exchange Rate Hedging

Module 1. Overview: Exchange Rates and Cash Flows

Class Number: 1 - Overview

Readings: Lecture Notes, Chapter 1
Module 2: Interest Parity and Hedging Single Cash Flows with Forwards
   Class Numbers: 2 to 3 - Interest Rate Parity and Standard Hedging with Forwards
   Readings: Lecture Notes, Chapter 2

Module 3: Hedging Single Cash Flows with Options
   Class Numbers: 4 – Standard Hedging with Options
   Readings: Lecture Notes, Chapter 3
   Class 6. Great Eastern Toys Case Discussion

Module 4: Hedging Multi-Period Cash Flows
   Class Numbers: 5 – Hedging Multi-Periods
   Readings: Lecture Notes, Chapter 4
   Class 8. Livingston Chemical Case Discussion

Module 5: Real Exchange Rate Risk and Exposure
   Class Numbers: 7 – PPP and Real Exchange Rate Risk
   Readings: Lecture Notes, Chapter 5
   Class Numbers: 9 – Exchange Rate Exposure
   Readings: Lecture Notes, Chapter 6
   Class 10. Expose’#1 (Jaguar) Case Discussion

Module 6: IN CLASS MIDTERM – Part 1 Summary
   Class 11. Midterm Review
   Readings: Old Exams on Canvas
   Class 12. MIDTERM 1: In class

Part 2: Valuing Cash Flows Across Borders
Module 7: Shareholders Risk
   Class Numbers: 13 & 14: International Portfolio Risk
   Readings: Lecture Notes, Chapter 7
   Readings: Royal Dutch Shell Case
Class 16. **AES Globalizing the Cost of Capital Discussion**

**Module 8: International Cost of Capital**

*Class Number 15 & 17: International Cost of Capital Lectures*

*Readings: Lecture Notes, Chapter 8*

**Class 18. Foreign Company Analysis Discussion**

**Module 9: International Taxes, Corporate Fund Flows, and Inversions**

*Class Number 17 & 19: International Taxes Lectures*

*Readings: Lecture Notes, Chapter 9*

*Readings: International Tax Notes HBS*

**Class 20. International WACCs Discussion**

**Module 10: International Capital Budgeting**

*Class Number 21: International Budgeting Lecture*

*Readings: Lecture Notes, Chapter 10*

**Class 22. AES Tiete Case Discussion**

**Module 11: IN CLASS MIDTERM – Part 2 Summary**

*Class 23. Midterm Review*

*Class 24. MIDTERM 2: In class*

**Module 12: International Valuation**

*Class Number 25: International Valuation Lecture*

*Readings: Lecture Notes, Chapter 11*

*Class Number 26: Guest Speaker, Carla Nunes, Managing Director, Office of Professional Practice, Duff and Phelps*

*Readings: Bio on Canvas*

**Module 13: Assessing Country and Sovereign Risk**

*Class Numbers 27: Country and Sovereign Risk Lecture*

*Readings: Lecture Notes, Chapter 12*

**Module 14: COURSE SUMMARY – Capstone Case**

*Class 28. LaFarge Case Discussion*
